WIPER BLADE

Made of synthetic rubber with a PTFE (Teflon) coating

PTFE (Teflon) - this material is used, among others, because of its non-stick properties, minimal friction coefficient and UV resistance. This ensures effective collection of water from the glass and quiet and long operation.

Standard features

Perfect rubber mixture: wiper blades made of high-quality synthetic rubber with a PTFE (Teflon) coating ensuring effective water drainage and quiet operation.

Precise fit: modern design ensures even pressure and perfect fit to the curvature of the glass.

High-quality construction: plastic elements made of polyoxymethylene (POM) - a material with exceptional mechanical resistance. Metal elements made of high-carbon steel with electrophoretic anti-corrosion coating ensuring full protection against rust.

Quick installation: These wipers are designed for easy and quick installation.

Quality verification: Each wiper blade is thoroughly inspected to meet our high standards.

MT Multi-type frameless wipers

Available lengths: 350–800 mm

Quantity per package: 1 pc.

Construction: frameless, multi-adapter

Multi-type means that the wiper is compatible with up to 14 types of interchangeable mountings: U, A, B, B1, C, C1, C3, C4, D, E, E1, F, K, M. The exact quantity and type of adapters included in each package vary and are matched according to the catalog.

Special features

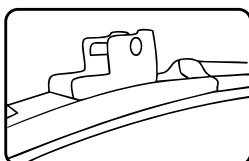

Universal solution: The wiper range with interchangeable adapters is a versatile all-in-one solution that fits almost any type of automotive mount.

Symmetrical double-sided spoiler: thanks to which they also fit cars with right-hand drive, as well as cars with a counter-rotating wiper system.

Wipers for trucks

WUSAG SERIES

High-performance blade: The wiper blade is made of natural rubber and coated with a PTFE (Teflon) layer for effective water collection, quiet operation, and long durability.

Uniform pressure and fit: The wiper blade's design ensures uniform pressure and perfectly adheres to the windshield's curves.

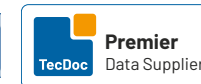

High-quality design: Plastic components are made of polyoxymethylene (POM), a material with exceptional mechanical resistance. Metal components are made of high-carbon steel with an electrophoretic anti-corrosion coating for complete rust protection.

Easy installation: The design allows for quick and effortless setup.

Effective in all weather conditions: The wipers operate reliably in all weather conditions.

Quality assurance: Each product undergoes rigorous quality control to meet our high standards.

WUSAG truck wipers

WUSAG801, WUSAG901, WUSAG1001

Available lengths: 800–1000 mm

Quantity per package: 1 pc.

Construction: frame

WUSAG truck wiper blades are designed to withstand the harshest conditions, delivering exceptional durability and reliable performance. Their classic steel frame construction makes them suitable for heavy-duty use. They fit 21, 25, and 27 mm wiper arms and Ø6 mm or Ø8 mm bolts. Designed specifically for select bus, van, and truck models.

Special features

20, 24, and 26 mm adapters included: designed to fit various arm types, ensuring a secure and stable fit.

Ø6 mm and Ø8 mm bolts included: an even wider range of mounting options for vans and trucks. A wiper blade for demanding applications: wipers designed for long-term and intensive use ensure reliable operation in commercial vehicles.
